
ATSC
TSG/S9 Specialist Group on RF Transmission

Scope

The Specialist Group on RF Transmission (TSG/S9) under the supervision and direction of the Technology and Standards Group (TSG), shall be responsible for developing technical documents and analyzing issues relating to terrestrial RF transmission and propagation with regard to ATSC DTV signals. Wherever possible, these standards will build on existing standards of the ATSC or other organizations. This activity will include liaison with other ATSC Specialists Groups.

Adopted by T3/S9 on 3/22/05
